Why, the young lady, of course. Does she not take advantage of the year by proposing, then why not foot the bill?

EXPENSIVE CHICKENS

George Smith, Colored, Loses a Foot For Hunting Barnyard Fowls

About ten days ago George Smith, colored, was a projectile around a white neighbor's hen-roost out in the county, merely to see that all his fowls were secure, of course.

Somehow or another, George took up an idea that a few of them would be safer if he took them to his own home; but as he was leaving the proprietor of the henry sent a few ounces of shot hurriedly after George, most of which the latter brought away in his foot.

When he was taken to the County Infirmary it was found there wasn't much foot left, and yesterday Infirmary Physician Sameel called in Drs. Adamson and Yazell, and Smith will in future hunt chickens on one wheel.

As the Doctors were about to begin operations, George became intensely religious, praying to beat the Haymakers' Band; but when the anesthetic took hold he invoked his favorite "Seben-curs-a-leben," and just as he aroused "I pass" was his first exclamation.

With Smith the ruling passion was strong in even temporary death.

No forced sale at Gerbrich's. But will save you \$25 to \$50 on a piano.

Mr. Charles A. Walther, who has had such a serious illness, is now getting along favorably.

A six-year-old daughter of Rev. P. Tipton, colored, of 113 East Fourth street died Saturday and the funeral took place yesterday from Scott's Chapel. Interment in Maysville Cemetery.

Will Investigate Killing of Abe Cline at Flemingsburg

The Grand Jury adjourned at Flemingsburg Saturday, returning thirteen indictments.

No indictment was returned against Ben Walton for killing Abe Cline with a ball bat several weeks ago.

The Jury could not agree on the degree of the crime, eight favoring an indictment for murder and four for manslaughter.

Judge Harbeson has called a special Grand Jury to convene today to again take up the matter.

Walton is out on bond.

"It is the law of American politics that no man can make himself a candidate for President, and no man can prevent himself from being a candidate for President."—From a statement made by the late James G. Blair.

In the distribution of his honors, Speaker HORNE of the Kentucky Senate made Hon. WILLIAM H. COX of this city Chairman of the committee on Printing.

CHICAGO's plan seems to have been to provide plenty of exits for the Iroquois Theater—then to bolt the doors to prevent fire from getting out.

By any safe, conservative Democrat might beat THEODORE ROOSEVELT for President, while MARK HANNA would beat any Democrat that might be nominated. This is about the way the case stands.

THREE Justices of the Supreme Court have decided that to eat in the modern quick-lunch restaurant with one's hat on is quite proper. Next thing you know the learned Justices will be called on to decide how old old ANN is.

BEGINNING today the hours of labor for all Department employees of Uncle Sam will be from 9 a. m. to 4:30 p. m., with an allowance of half an hour for luncheon. Heretofore the hours were from 9 to 4. The new rule virtually makes the pie-eaters furnish their own time for eating pie. On Saturday's only during the months of July, August and September the hours will be from 9 a. m. until 1 p. m.

THERE is a fight on at Lexington between the Leader and the newsboys of that city which is likely to be a repetition of the celebrated 'newsboys' strike,' which occurred several years ago.

The afternoon Leader on the first of the year lowered the price of the paper to 3 cents, but the boys on the street and the news dealers of the city have refused to take less than 5 cents for the paper. Several of the boys were willing to sell the paper for 3 cents, but threats have been made against them by other newsboys that if they do not demand 5 cents for the paper they will be driven out of the business.

The Police Department has been appealed to by the management of The Leader, and Mayor COMBS has notified the police authorities to arrest the disorderly members of the fraternity.

It remains to be seen whether the public will be "held up" and made to pay the extra price by the newsbutchers, or whether the publisher has a right to fix the price.

MR. A. W. LOUIS of Cincinnati and former Chief of the Bureau of Supplies for the Post-office Department, who was dismissed from that place as a result of the recent investigation on the charge of inefficiency and extravagance in office, although the Grand Jury refused to find an indictment against him, has, it is stated, decided to enter suit against Postmaster General PAYNE, Fourth Assistant Postmaster General BRISTOW and three Washington newspapers for damages. Mr. LOUIS claims that the Postmaster General and Fourth Assistant spread abroad untrue reports detrimental to his character and that the local papers published them.

The Grand Jury refused to believe the charges made by Bristow against LOUIS, now the latter says he is going to give Bristow a chance to bring out his witnesses and make him under oath, if they dare, repeat the alleged false charges.

Mr. LOUIS says he is going to place the damages at a high figure, but says that he desires litigation rather than monetary results. The suit will be filed in a few days.

Up to the present time every one of Fourth Assistant Postmaster General BRISTOW's "Post-office Thieves" who have been tried on the charges preferred by him have been dismissed by the Courts.

THE players of the slot-machines in Louisville have taken steps that will accomplish what the authorities have failed to do—put the machines out of business. There have been such vast numbers of "slugs" played into the little jokers that all profits have gone glimmering. That is more effectual than a police raid.

"THERE is an immense danger in being alive," said a Cincinnati man who has been trying to obey the instructions of the doctors. Here is the Health Officer advising us to boil our water before we drink it. If we imbibe of nature's normal thirst-quencher we will get typhoid fever. Great authorities on tuberculosis say that if we drink milk we will contract consumption from the cow. Others tell us not to drink whisky, for that fluid will give us the jimjams and wreck our souls as well as our furniture. Another medical authority says cigarettes will make us

die early and cigars will give us the cancer of the throat. Soup will give us Bright's disease, meat will encourage apoplexy, coffee will lead to nervous prostration and wine to gout. Oysters will cause us to acquire toxæmia and dessert induces paresis. So, in order to maintain perfect health we must sterilize every breath of air we take, eat nothing, drink nothing and smoke nothing. How dangerous it is to be alive, since a billion deadly germs lurk in the crevices of a little piece of celery, and a single grape may give us appendicitis and a bit of pork the fatal trichinosis.

Political Pickings

WHY DEMOCRATS WANT ROOSEVELT.

Cincinnati Commercial Tribune.

NINETY-nine out of every hundred Democrats from Canada's line to the gulf shore; from Maine to Oregon, are hoping and secretly rejoicing at the thought of Roosevelt being the Republican candidate. By every means at their command they are doing their best to fasten him upon the Republican ticket, believing they will have "a walkover" if he is their opponent. The San Francisco Examiner, The Chicago American, The New York American, The Evening Journal, The Cincinnati Enquirer, The New York World, The Pittsburgh Post, one and all of them, take it for granted, daily assert it and studiously keep it before their readers that Mr. Roosevelt will be nominated, and at the same time they are confidently grooming candidates to defeat him.

Democratic hopes have grown tremendously since Roosevelt came into power. We say it with poignant regret that Roosevelt has given them strong and powerful reasons for hopes of success in case he is a candidate, and has embarrassed the party, whether he is a candidate or not. The Democrats know full well his chronic and continually increasing weakness in New York state. They have seen Maryland turned over completely to their party by and through Roosevelt's Administration.

They witnessed Kentucky, so nearly won to Republicanism under McKinley, lined up solidly in Democratic ranks.

North Carolina, taken by the Republicans, and two Senators acting with our party, now represented in the Senate by two Democrats, and no hope of Republican success in the state.

Delaware Republicans torn to pieces by Roosevelt shifting and twisting until they do not know whether they are afoot or on horseback, and are only sure that they cannot hold the state.

Colorado, ditto and hopelessly gone—Utah, between Mormon troubles and miners' strikes, absolutely lost to Roosevelt.

Indianapolis furnishing a Democratic Mayor in the chief city of an always doubtful state.

Boston giving a tremendous Democratic majority in the state election last month, 18,000, and piling 9,000 more upon it this present month at the Mayoralty election.

Stanch, true little Rhode Island, never recreant until Roosevelt became President, electing a Democratic Governor two terms in succession, and, if she votes next year as she has done the past two, will give the Democratic candidate for President her electoral votes.

The town elections of Connecticut showing Democratic gains in every direction this present year, and corresponding Republican losses.

The New Jersey elections telling the same sad story of discord and discontent among our voters, and it is currently reported that the leading Republican of the state, Hon. Franklin Murphy, felt it his duty to tell Roosevelt of the powerful opposition in New York and New Jersey to his candidacy, and to his election, if nominated.

As to New York state itself, when veteran Republican prognosticators and political prophets, while swearing fealty to Roosevelt, state we can elect him without the vote of New York, it is an open admission that Roosevelt cannot carry it.

Two years of Roosevelt in the White House have done all these things for the Democratic party—why wonder that they desire his nomination?

Once in a While

Some economically-inclined fellow stops to look longingly at the swell patent leather lines shown in our windows, but he balks at putting up \$5 or \$6 for a pair, though judge enough to know the goods are worth every cent asked. In his annual review of business and financial conditions Henry Clews says the year 1903 was chiefly conspicuous as marking the culmination and collapse of the great trust movement which began five or six years ago. He thinks the outlook favorable.

IMPORTANT MEETING

Merchants of Maysville Are Asked to
"Get Together" For 1904

With the advent of 1904, the merchants of Maysville must realize, if they are to be made a great success, it can be made only by the co-operation of every merchant in town.

The time has come when towns are only a success when all the merchants work in harmony, and there is no time better than now to realize this fact.

There is a plan suggested to boom Maysville this spring, and it is of vital necessity that every merchant of Maysville attend the meeting Wednesday night at 7 o'clock at the Board of Trade room.

Plans to be unfolded at this meeting will be a revelation to the Maysville Public.

Dislocated Her Shoulder.

Mrs. Johanna Seiberhelm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by J. Jas. Wood & Son.

OLD FOLKS.

THEIR DAYS MAY BE PRO-
LONGED

How the Evening of Life May Be Made
Happier for All.

"If people only knew the good that Vinol does old people," said Mr. J. C. Pecor, our wellknown druggist, "columns of space in our newspapers would be devoted to the subject for the benefit of mankind in general. I can truly say that we have never sold anything in our store equal to Vinol as a strengthener and body-builder for old people."

"You see, with old age comes feebleness and loss of power, the organs act more slowly and less effectively than in youth, the appetite is poor, the digestion weak, and there is not that same renewal of body tissue."

"There is nothing more pitiful to me than to see old people tottering around. I know that Vinol cannot bring back lost years, but it will lengthen life and brighten the years that remain."

"We are hearing from all over the country remarkable results which prove my statement, and we have received letters from sons and daughters of old people telling how father or mother has been made well and happy by the vigor and strength which Vinol brings the old. "It was only a few days ago a letter was brought to my attention from Mr. John G. Nichols of Lawrence, Mass., in which he said that he was eighty-four years old, and he had not felt so well for fifteen years as he had since taking Vinol; it gave him a good appetite, and he feels strong and well, and is working every day from six o'clock in the morning until five o'clock at night."

"It is just this way," continued Mr. Pecor. "Vinol invigorates the stomach first of all, creates an appetite and enables the stomach to separate from food the elements needed for rich, red blood, healthy body material and sound, steady nerves. In this natural manner it repairs worn tissues, checks the natural decline and replaces weakness with strength."

"For any one suffering from any weakened, run-down condition Vinol will do the same; and it is because we know so well what Vinol will do that we guarantee its action, and we will gladly refund the money paid for it to any one who is not satisfied. I wish every old person in this vicinity would just try Vinol on our guarantee. If it does not satisfy, then it will not cost them a cent." J. C. Pecor, Druggist.

GERMAN SYRUP.
We want to impress on our readers that Boscov's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specific, such as purest, extracts of gum, etc., which have been so highly indorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs must have rest at night, and be free from the spasms of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. He says "One night while feeling exceptionally bad I was about to throw down the evening paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years, and I recommend Kodol Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble." Sold by J. Jas. SPEAKING OF STREETS

Lexington's New Mayor Moving For
New Highways There

It is gratifying to know that we do not stand alone in our filth. The new Mayor of Lexington says in a recent message that "the streets of the city are in a deplorable condition and prompt steps should be taken to remove the filth that has accumulated thereon for months." Some of the streets (brick streets) are so off repair that thorough reconstruction will be necessary. The completion of a satisfactory sewage system, he declares, is a public necessity.

City Engineer O'Neill is much pleased with the experiment of reconstruction made on Main street under his immediate supervision. A bed of concrete six inches in depth is laid over the old sand foundation. New bricks are used in the center and the old toward the curbing. Specially selected street hands do the work. The cost of the work on Main street was only \$1.15 per square yard. The cost of the original construction was \$2.40. In the reconstruction sewers are provided, so that the streets will not have to be disturbed, and the system will thus be perfected in the down-town district. Dig your cellar before you build your house. Construct your sewers before you make your streets. Without good sewers you cannot have good streets. With our big river and natural drainage what a city Lexington would be.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

WANTED BETTER PRICE

Canvas-Grown Tobacco Sold For Eleven Cents a Pound

Ed Downing of Lexington has just sold the first crop of White Burley tobacco ever raised in that section under canvas.

He realized eleven cents per pound for about 4,000 pounds, which was a little more than half the price he expected.

The experiment, however, proved to be a success, as the quantity was about three times the amount usually raised in the open.

Downing will raise a large crop of the White Burley under canvas this year.

YOUTHFUL INCENDIARY

After Firing a House Five Times She Was Finally Caught

Anna Alexander, a fifteen-year-old colored girl, came to this city from Cynthia about three months ago and found a home with Martha Clay, colored, in Catholic alley.

The girl was inclined to be wayward and wanted to gad the streets after nightfall. For disobedience the Clay woman had inflicted corporal punishment on several occasions, which evidently bred hatred and revenge in the breast of the girl.

During the past week the Clay house was set afire five times, and in each instance was discovered by the girl who gave the alarm in time to prevent destruction of the house.

The incendiaries became so numerous and in such a mysterious way that the occupants feared for their lives.

Finally ex-policeman Robert Thompson was employed to ferret out and solve the matter. He remained on watch several days and on Friday evening last about 5 o'clock he bagged his game.

On that evening he was secreted where he had full view of the premises and when the fire occurred he rushed in and put it out. This time a lighted match had been touched to a gauze curtain and a skirt hanging over a window, the blaze from which almost filled the small room. As soon as Mr. Thompson entered the girl ran out the door and gave the alarm as on former occasions. Being tasked with the crime she protested her innocence. Thompson being convinced of her guilt, and merely as a ruse, told her he would send for the bloodhounds, when she collapsed and confessed that she was the guilty one, and did it because she had been whipped by the Clay woman, and that neighbors had suggested this way of getting even for the punishment. The injured parties not wishing to prosecute, the girl was sent to relatives in Fleming county.

Had a fire got a good headway in that neighborhood there is no telling where it would have stopped nor the money loss sustained.

Mr. Thompson while on the force was one of our best policemen. He has courage, physical strength, quick to think in an emergency and a cool head—requisites for a perfect officer.
